

ChemConcepts™

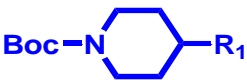

Introducing novel chemistry

**Interested in making Drug Discovery Affordable?
Are you looking for new and exclusive deals?**

We at ChemRoutes Corporation understand the importance of affordable drug discovery and building relations that matter. And hence we bring to you, ChemConcepts™, a newsletter that promises to introduce you to novel chemistry and exclusive deals on our product lines.

A ChemRoutes Exclusive!!

New **ChemCore™** and **ChemKit™** series & scaffolds to expand your research capabilities

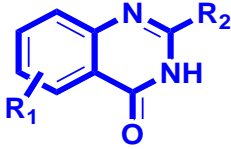

CR-55

4-substituted piperidines with monocyclic or bicyclic heterocycles

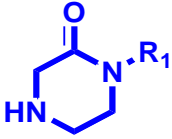

A few suggested areas of research are:

- neurodegenerative diseases
- opioid
- anxiety and pain

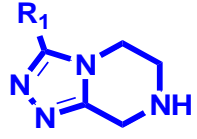

CR-89

Pyrimidine-4-ones

CR-90

Piperazin-2-ones

CR-91

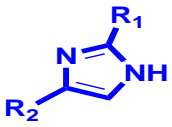

Triazolo-pyrazines

A few suggested areas of research are:

- anticancer
- antimicrobial
- opiate
- kinase
- anti-inflammatory

For your hit to lead medicinal chemistry needs:

Try the new & **expanded imidazole based fragment collection (CK-08)** from our fragment based discovery ChemKit™ program.

CK-08

Please contact us for additional information, custom expansion options and pricing details.
